**Subject:** Fw: Dimock Sampling Plan - Draft Final for Review

Richard,

Thursday would work for me.

Below is the sampling plan (draft) - I have a few comments and questions concerning the plan and hope to talk to the OSC today. In the meantime, you will find the list of parameters in the tables (pdf version only). We are doing the anions, glycols, metals, nitrate/nitrite, O&G, TP, SVOCs, TDS, TSS, VOAs. I think NERL is taking the radionuclides. Bacteria will need to be done by a local lab due to HTs.

More clarification on this project is needed but hopefully the tables provide some idea of the methods and number of samples being planned.

I'm in a meeting this morning so if you want to talk today 4:00EST would be fine.

Thanks again,  
Cindy

Karen and Cynthia,

Please find the final draft of the SAP for Dimock attached below. I am providing the main body of the SAP in Word so you may add comments as you wish. The tables are only present in the pdf version of the SAP.

We would like to finalize the plan by close of business Wednesday January 4. If you are able please provide any comments you may have by then. If you need more time please let me know and we will do all we can to accommodate your needs.

You may call me at your convenience using my mobile as listed below.

thanks  
Rich

Subject: Dimock Sampling Plan - Draft Final for Review

Rich,

Attached for your team's review, please find the most-recent Dimock sampling plan which incorporates elements of our discussions yesterday as well as that subject matter discussed with Dr. Ludwig. The .pdf contains the attachments. Please let us know if you have any questions. Thanks,

Joe Carter
